Nama : **Anisha Trie A**

Kelas : **XI RPL 6 (Laravel)**

No. Absen : **06**

Tugas 2

1. Database (PHP My Adminn)
   - Anggota

   - Buku

   - Petugas

2. Seed CMD

3. Coding
   - Anggota_Model

```php
<?php

namespace App;

use Illuminate\Database\Eloquent\Model;

class Anggota_Model extends Model
{
    protected $table="table_anggota";
    protected $primaryKey="id";
    public $timestamps= false;
}
```

- Anggota.php (seeds)

```php
public function run()
{
    \App\Anggota_Model::insert([
        [
            'nama_anggota'=> 'budiman',
            'alamat'=>'masi sendiri',
            'telp'=>'08978675646'
        ],
        [
            'nama_anggota'=>'sabarin',
            'alamat'=>'sigle',
            'telp'=>'087675646'
        ],
        [
            'nama_anggota'=>'saya',
            'alamat'=>'disini',
            'telp'=>'0837675646'
        ],
        [
            'nama_anggota'=>'aku',
            'alamat'=>'jauh',
            'telp'=>'08128687646'
        ],
        [
            'nama_anggota'=>'dia',
            'alamat'=>'bahagia disana',
            'telp'=>'08123569846'
        ]
    ]);
}
```

4. Coding
   - Petugas_Model

```php
<?php

namespace App;

use Illuminate\Database\Eloquent\Model;

class Petugas_Model extends Model
{
    protected $table="table_petugas";
    protected $primaryKey="id";
    public $timestamps= false;
}
```

- Petugas.php (seeds)

```php
public function run()
{
    \App\Petugas_Model::insert([
        [
            'nama_petugas'=>'suhooo',
            'alamat'=>'jauh disana',
            'telp'=>'0897654332',
            'username'=>'suhooo',
            'password'=>'12345',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'nama_petugas'=>'jarwooo',
            'alamat'=>'jauhaja',
            'telp'=>'081475789949',
            'username'=>'jarwooo',
            'password'=>'12345',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'nama_petugas'=>'Auliaaa',
            'alamat'=>'deketin aja',
            'telp'=>'08126489297',
            'username'=>'auliaaa',
            'password'=>'12345',
            'created_at'=> date('Y-m-d H:i:s')
        ],
```

```php
            [
                'nama_petugas'=>'bastiannn',
                'alamat'=>'jauh ajalah',
                'telp'=>'0897654332',
                'username'=>'bastiannn',
                'password'=>'12345',
                'created_at'=> date('Y-m-d H:i:s')
            ],
            [
                'nama_petugas'=>'yogaiiin',
                'alamat'=>'deket titik',
                'telp'=>'0897654332',
                'username'=>'yogaiiin',
                'password'=>'12345',
                'created_at'=> date('Y-m-d H:i:s')
            ]
        ]);
```

5. Coding
   - Buku_Model

```php
<?php

namespace App;

use Illuminate\Database\Eloquent\Model;

class Buku_Model extends Model
{
    protected $table="table_buku";
    protected $primaryKey="id";
    public $timestamps= false;
}
```

   - Buku.php (seeds)

```php
public function run()
{
    \App\Buku_Model::insert([
        [
            'judul'=>'sendiri',
            'penerbit'=>'Gramedia',
            'pengarang'=>'bajigur',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'judul'=>'berdua',
            'penerbit'=>'Gramedia',
            'pengarang'=>'budiman',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'judul'=>'dia aku',
            'penerbit'=>'Gramedia',
            'pengarang'=>'bagaskara',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'judul'=>'dilankku',
            'penerbit'=>'Gramedia',
            'pengarang'=>'bissaaja',
            'created_at'=> date('Y-m-d H:i:s')
        ],
        [
            'judul'=>'Merbabu',
            'penerbit'=>'Gramedia',
            'pengarang'=>'alwyspositif',
            'created_at'=> date('Y-m-d H:i:s')
        ]
    ]);
```

6. DatabaseeSeeder.php

```php
public function run()
{
    // $this->call(UsersTableSeeder::class);
    $this->call(anggota::class);
    $this->call(buku::class);
    $this->call(petugas::class);
}
```
